Woods' Horse.—Peter Heintz, of Pioneer, won Woods' Brown Horse this afternoon, throwing 45 counts of dice. "So better as goat."

"Dutch Henry," everybody knows him by this name, took quarters in the lock-up this afternoon, for disorderly conduct.

A letter received in New York from George Peabody states that he had a very pleasant voyage to England, and his health is about the same as when he left the United States.

A Cincinnati paper says a bookseller of that city saved a stranger from bankruptcy by a small loan some forty years ago, and has just been bequeathed two millions by him to be saved. Small loans received a his office on the same terms.

BANK AT PARKER'S LANDING.—Messrs. James Parker, P. McGough, and Wm. B. Foster, have opened a banking-house at Parker's Landing, under the title of the Parker's Savings Bank. An institution of the kind was much needed by the business men of that thriving locality. The names of the proprietors are a sure guarantee of financial soundness, business capacity and integrity—three requisites to make a bank what it should be for all concerned.

Last week as Mr. A. S. Palmer, of Petroleum Centre, was returning from Scrubgrass on the Allegheny Valley train, his pocket book, containing a large amount of money, dropped from his pocket on the seat, and he left the car without discovering his loss. After he had taken his seat in the omnibus to cross the river, Conductor Charles Taylor came to the door and asked if any passenger had lost a pocket-book, whereupon Mr. P. discovered his loss and identified the same. This conduct of Conductor Taylor is worthy of mention and commendation, as it is not the first instance of a similar character which has come to our knowledge.—Oil City Times.

COUNTERFEIT TEN.—The well executed ten dollar greenback counterfeit may be detected by its inferior length and width. Also by the absence of a small dot after the word "United" in "United States." Also by the absence of a period after the "E" in Spinner's signature. There are several other discrepancies, but the above are sufficient to detect the bogus affair.

IMPORTANT TO O. C. & A. R. RY. PASSENGERS.—On the first of next month a new passenger tariff will go into effect on the above mentioned railway, which is of great importance to passengers. In case the passengers purchase tickets, the tariff will be the same as at present, but if the fare is "paid on the train" ten cents additional will be charged, and for all distances over ten miles one half cent per mile additional will be charged. This tariff has been fixed upon by the company, principally for the purpose of inducing passengers to purchase tickets that the conductors may not be hampered in collecting fares and making change. The large number of fares that is collected on every train between Titusville and Oil City, and the time occupied in making change, necessarily retard the progress of the trains. The new tariff will tend to obviate the necessity of making change; and, if all the passengers will purchase tickets, the running time of the train between Titusville and Petroleum Centre can be made ten to fifteen minutes faster, and fifteen to twenty faster between Titusville and Oil City. The saving that can be made in the running time is of consequence, and the new rate will give general satisfaction.—Herald.

BRIGHAM YOUNG ON POLYGAMY.—Brigham Young claims that polygamy is not peculiar to Mormonism. In a sermon recently he said that father Abraham had many wives, and he quotes many others. He said that God had never forbidden polygamy. The Savior never rebuked it, though surrounded by it. It was a new invention to rule out this practice of the olden time. "But," said he, "we are not polygamists exactly." (He has children by nine wives.) "But we are sealed for eternity, as it is revealed to us." He then spoke of the dreary life that must be passed through the untold and incomprehensible period of eternity by those who have no congenial spirits "sealed" to them. These sealed companions, beautiful angels in eternity, will make us happy in the presence of God. But Brigham didn't explain the effect upon the men. While a man has twenty wives or angels to make him happy, the poor women have only one-twentieth part of a man to attract their attention.

IMPORTANT CONVERSION TO CATHOLICISM.—We learn on authority which we are forced to regard as unquestionable that the Rev. James Kent Stone, D. D., late President of Hobart College (Episcopalian) at Geneva, has unqualifiedly declared his renunciation of the tenets of the Protestant Episcopal Church and his conversion to Catholicism. This announcement will occasion no little surprise among those of the Doctor's friends who know how zealously he labored in the cause with which he has so long been identified. Dr. Stone is a man of great ability, an eloquent speaker and profound thinker. He is a grandson of Chancellor Kent. He was formerly President of Kenyon College, in Ohio, and accepted the Presidency of Hobart College something over a year ago. He resigned in July last and went to Boston, where he now resides.

A singular document appears in the Toledo papers of Saturday. It is a card from Conrad Meyer, the condemned murderer, offering to exhibit himself for the benefit of his wife who has lately become a mother. He says: "On Mondays and Thursdays I shall be happy to see and converse with any one who is willing to testify to his or her sympathy by contributing, however small, toward the support of my poor, heart-broken wife and her infant. I am compelled to ask that the public will not take offense at this appeal. My own fate I shall try to meet with becoming fortitude; but, oh! it is anguish to think that the wife and child whom I love so well will soon be pointed at with scorn, as the wife and the son of a murderer!"

At Sheridan, the present terminus of the Kansas Pacific Railway, a few nights ago, a mule thief was taken out to the railroad bridge, near town, to be hanged. The rope had been placed around the fellow's neck before starting from town, and he was led along like an ox to the slaughter, but, on arriving at the bridge, and while the vigilantes of the hangman were tastering the other end of the rope to the trestle work of the bridge, the alleged thief slipped the noose from his neck, slipped out of the crowd and off the bridge, and made his escape. Some forty or fifty shots were fired after the slippery fellow, but if any of them hit his person they slipped off, and he got away unhurt.

Our German friends can appreciate the following joke: A boy about fourteen years of age made his appearance in a barber shop the other morning in company with his father. The boy having just put on a pair of new boots, attracted the attention of an acquaintance, who remarked that they were not made well and would prove worthless. "I'll bet they are good," said the boy, "I got them from a German who hasn't been long enough in the country to learn how to cheat."

Delaware is a small State, and growing smaller. The Delaware encroaches upon it from ten to twelve feet every year, and the sites of houses that once stood in the midst of fields are now under water. The light-house near Bowler's beach has been removed three times, and a small hotel on the same beach, that once stood in the midst of cultivated grounds, a considerable distance from the bay, with large trees in front of it, has its walls now washed by the waters.

A drummer for a New York house aged about twenty-five, accompanied by a young girl, in male attire, aged about eighteen, stopped at a hotel in Erie the other day. The girl could not pass muster in that kind of dress, and was taken charge of by a detective. She wept, and begged to be let go. She said she was the daughter of a McKean county farmer. She was sent back to her parents.

Jefferson Davis, upon his return from Europe, is represented as manifesting much sorrow at the news of the death of Ex-President Pierce, whose Secretary of War he was for several years.

TELEGRAPH REPORTED FOR THE DAILY RECORD, Afternoon Dispatches.

Tennessee Senatorship—Election of Cooper.

Nashville, Oct. 22. The opposition concentrated on Henry Cooper to-day, and he was elected Senator on the first ballot—Cooper 55, Johnson 51. Cooper is a gentleman of fine ability, and has been a consistent Union man all the time.

Columbus has a heroine. Her name is Etta Stanley, and she went to Kansas with her mother and other excursionists; and they were riding in a car on the great Pacific Railroad; and Henry Bergh was not there; and a rifle was there; and there was a bullet in the rifle; and there was powder behind the bullet; and Miss Stanley pointed the rifle out of the car window; and she pulled the trigger; and the hammer fell in consequence of the pulling of said trigger; and the hammer of said rifle exploded a cap on said rifle; and said cap, thus exploding, ignited the powder in said rifle; and said powder exploded in consequence of said ignition; and the bullet in said rifle was propelled by said explosion in the direction of a herd of buffalo; and one of said herd was killed by said bullet. Who, then, dare dispute the claim that Miss Stanley, Miss Etta Stanley, is a heroine of the first water and best bugalo blood?

The steamer Perle has made the quickest passage across the Atlantic on record she left Havre on the 29th Inst., at 4 P. M. and passed Sandy Hook Monday morning, 8 o'clock, making the entire distance of over 3,000 miles in eight days and sixteen hours. Her officers report that she would have been in five hours earlier had it not been for the strong head wind encountered the last two days of the passage. The Perle has made a number of very quick passages. In November last she made a remarkable voyage, and her last trip preceding this was also a very quick one.

A Northwestern journal informs its readers that "Franklin Pierce was born in his native village." This may be true, but none of Mr. Pierce's biographers mention the fact—not, at least, in those words.
